The Gem Theatre presents - Menopause - The Musical Inspired by "a hot flash and a bottle of wine," Jeanie Linders created this fun-filled evening of laughter and song. Menopause The Musical is a celebration of a life passage that, Linders believes, launches women into an exciting new phase of their life. Due to overwhelming audience response, Menopause The Musical has become, in its short history, a production phenomenon. The four characters – an aging soap star, a lost-in-the-'60s hippie, a high-powered executive and an Iowa housewife visiting the city with her conventioning husband – meet while fighting over a black lace bra at a Bloomingdale's lingerie sale.
